DMYTRO KARPUS

I know React and Vue, and also can use them with Next.js or Nuxt.js respictivly. Have good knowledge of math, so if it is needed can develop math releated things. In addition, I know backend technologies such as Django, PHP, Node.js and can write backend using them. Of course, I am ready to learn new technologies or programming languages to use them in new projects.

SKILLS

Programming

React+Redux/Vue + Vuex
Next.js/Nuxt.js
Java Script/Type Script
Node.js
PHP
Python
HTML/CSS/SCSS

Operating Systems

Linux
Windows

Software & Tools

Git
MySQL / Postgre SQL
Shell

Languages

Ukrainian
Russian
English
Polish

ABOUT ME

I started learning programming from school times, because that was interesting for me and still have passion to this. I have less than one year of commercial experience on part-time employment, but now I want work on full-time job as frontend developer. Also, I don't smoke and drink alcohol and go to gym 3 times a week. As well, I have some projects on github, some of them public, so you can check them. The last project is here.

EDUCATION

09/2019 - 05/2023
Jagiellonian University, Kraków

Bachelor of Theory Math

GENERAL SKILLS

React JS | Redux | React Router | Ant UI | Next.js | Vue | Vue Router | Vuex | Vuetify | Nuxt.js | Node.js | npm | webpack | git | HTML | CSS3 | SCSS | Java Script | Type Script | Postgre SQL | MySQL | PHP | Python | Django | Django REST | OOP | REST API | Linux | Math Analysis | Linear Algebra | Topology | Abstract Algebra | Partial Defferential Equations | Ordinary Differential Equations | Cryptografy | Graph Theory | Complex Analysis | Functional Analysis | Makroekonomy | Probability Theory | Measure theory and integration
