

DMYTRO KARPUS

I know React and Vue, and also can use them with Next.js or Nuxt.js respectively. Have good knowledge of math, so if it is needed can develop math related things. In addition, I know backend technologies such as Django, PHP, Node.js and can write backend using them. Of course, I am ready to learn new technologies to use them in new projects.

Polish

ABOUT ME

I started my road to the IT 6 years ago and now have 1.5 years of experience in commerce. I'm proactive in problem solving and can work in team efficiently. As well, I have strong skills in frontend (especially Vue and React) and can work with backend side using PHP, Node.js or Python. I don't smoke and drink alcohol, and go to the gym 3 times a week. Also, I have Bachelor degree in theory math, so I can implement complicated logic and analytics tools in your apps

🎓 EDUCATION

📅 09/2019 - 05/2023

📍 Jagiellonian University, Kraków

Bachelor of Theory Math

🧰 JOBS

📅 09/2020 - 09/2021

📍 Qtim, Tula

Frontend developer

Making pages and logic on frontend side as well as making api on backend side

Vue.js Nuxt.js Nest.js Ant UI

GENERAL SKILLS

React JS Redux React Router Ant UI Next.js Vue Vue Router
